Dear Sirs,

We, M/s M B D & Co LLP ("MBD" the "Valuer" or "We"), have been engaged vide engagement letter dated October 12, 2017 to recommend share entitlement ratio for proposed demerger of 'Real Estate Undertaking' of Nila Infrastructures Limited ("Nila Infra" or "the Demerged Company") into Parmananday Superstructure Limited ("PSL" or "the Resultant Company") (jointly referred to as the "Companies") with effect from the appointment date of 1st April 2017 in connection with the proposed Scheme of Arrangement under Sections 230 to 232 of the Companies Act, 2013 ("the Act") between Nila Infra, PSL and their respective shareholders and creditors ("the Scheme" or "this Scheme").

This report is subject to the scope limitations, exclusions and disclaimers detailed hereinafter. As the Report is to be read in totality, and not in parts, in conjunction with the relevant documents referred to therein.

This report is structured under the following broad heads:

- Background of the Companies
- Sources of Information
- Salient features of the Scheme
- Methodology
- Share Issuance Ratio and Conclusion
- Scope Limitation, Exclusion and Disclaimers

1. Background of the Companies

- 1.1. Nila Infra, a flagship company of Nila Group, is a public limited company incorporated on February 26, 1990 under the Companies Act, 1956. The equity shares of Nila Infra are listed on BSE Limited ("BSE") and National Stock Exchange of India Limited ("NSE").
- 1.2. PSL was incorporated on May 03, 2000 under the provisions of Companies Act, 1956. It is engaged in the real estate and housing. It is a closely held public company. Nila Infra along with its nominees hold 100% of the paid-up equity share capital of PSL.
- 1.3. Nila Infrastructures Limited is one of the very few listed entities of India which is involved into the business of Infrastructure and Real Estate business i.e. primarily Affordable Housing Schemes. It has around three decades of experience in Infrastructure and Real Estate sectors.
- 1.4. Nila Infra is engaged in the business of Infrastructure Development and Real Estate. Nila Infra is carrying on the business of through the business model of EPC Contracts, PPP Contracts, EPC + PPP Contracts etc.
- 1.5. As per the draft scheme and discussion with management of Nila Infra ("the Management"), we understand that upon demerger of Real Estate Undertaking into PSL, share in PSL will be issued to shareholders of Nila Infra such that Nila Infra and PSL will have mirror shareholding upon such issue of shares.

2. Sources of Information

For the purpose of this exercise, we have considered the following sources of information and documents:

- Audited financial statements of Nila Infra and PSL for last three years;
- Unaudited Provisional Statement of Accounts of Nila Infra and PSL as on September, 2017;

- Annual Return of Nila Infra and PSL for the year 2016-17;
- Memorandum and Articles of Association of Nila Infra and PSL;
- Draft Scheme of Arrangement; and
- Held interview and relied on representation of Management
- Carried out such analysis, reviews and inquiries as we considered necessary.

3. Salient features of the proposed Scheme

- 3.1. The Scheme envisages demerger of Nila Infrastructures Limited's Real Estate Undertaking into Parmananday Superstructure Limited.
- 3.2. The Management of both the companies believe that the restructuring would benefit the companies and its stakeholders on account of the following reasons:
 - To make the current holding structure more efficient;
 - To streamline its investments;
 - Re-alignment of business operations so that the value for the shareholders can be maximized;
 - Re-alignment of Infrastructure Business and Real Estate Business into different entities will enable the respective companies to pursue different business strategies and raise resources for meeting their respective growth requirements;
 - Creation of separate companies for each business and each companies would attract different set of investors like strategic partners, lenders etc. thereby unlocking value of respective businesses and existing shareholders
 - To further explore the new avenues of other businesses;
 - To have operational flexibility in future
- 3.3. The appointed date of the Scheme shall be April 1st 2017 or such other date as the National Company Law Tribunal, Ahmedabad Bench (the 'NCLT') may direct / fix;
- 3.4. Upon scheme becoming effective, existing shareholding of Nila Infra in PSL shall stand cancelled without any payment;
- 3.5. Upon Scheme becoming effective, present Equity shares of PSL of INR 10 each will be subdivided in to 10 equity shares of INR 1 each.
- 3.6. Upon Scheme becoming effective, name of Parmananday Superstructure limited will be changed to Nila Superstructure Limited without further acts / deeds.

4. Methodology

- 4.1 For the purpose of valuation, it is necessary to select an appropriate basis of valuation amongst the various alternatives. It is universally recognized that valuation is not an exact science and that estimating values necessarily involves selecting a method or approach that is suitable for the purpose. The application of any particular method of valuation depends upon various factors including the size of company, nature of its business and purpose of valuation. Further, the concept of valuation is all about the price at which a transaction takes place i.e. the price at which seller is willing to sell and buyer is willing to buy. Accordingly, a fair and proper approach for valuing the shares of the company is to use a combination of these methods.

The following methods are generally used for determining the fair value of equity shares:

- A. Market Value;
- B. Profit Earning Capacity Value; and
- C. Asset based valuation techniques

- **Profit Earning Capacity based on the past working results**

Under this method, the value of the company is arrived at by capitalising its future maintainable profits by an appropriate Price Earnings Ratio ("PE Ratio"). Such future maintainable profits are calculated based on the past working results of the company, usually for a period of 3-5 years after adjusting for non-recurring, unusual or abnormal items of income and expenditure. In determining the PE Ratio one may consider share quotations of companies engaged in the same or similar business as the company whose shares are being valued after adjusting for dissimilarities between the companies being compared with the equity shares of the company being valued and the strengths, weakness and other factors peculiar to the equity shares of the company being valued.

- **Asset based valuation techniques**

The asset based valuation technique is based on the value of the underlying net assets of the company, either on a realizable value basis or replacement cost basis. This method is also known as the Net Asset Valuation ("NAV") methodology. Normally, this method is adopted in the following circumstances:

- When the firm does not meet the "going concern" criteria; or
- When the assets base dominate earnings capability

4.2 As mentioned in clause 1.2 and 1.5 of this report, Nila Infra and PSL are a part of same group/entities and upon the proposed restructuring none of stake holders would be adversely affected. Accordingly, the Board of Directors of Nila Infra and PSL have proposed a share exchange ratio for the Scheme having regard to the following factors:

- Desired capital structure; and
- Serviceability of capital.

4.3 We understand that consequent to the demerger, the beneficial economic interest of the shareholders of Nila Infra (the Demerged Company) in the paid-up equity share capital of PSL (the Resulting Company) would be the same as it is in the paid-up equity share capital of Nila Infra (the Demerged Company).

4.4 Considering following aspects:

- PSL is wholly owned subsidiary of Nila Infra;
- Upon the Scheme becoming effective, existing shareholding of Nila Infra in PSL shall stand cancelled without any payment;
- Upon the Scheme becoming effective, present Equity shares of PSL of INR 10 each will be subdivided in to 10 equity shares of INR 1 each.
- Upon the Scheme becoming effective, shareholders of Nila Infra would be entitled to shares in PSL in the same proportion in which they own shares in Nila Infra; and
- Upon the Scheme becoming effective, the beneficial economic interest of the shareholders of Nila Infra in the paid-up equity share capital of PSL would be the same as it is in the paid-up equity share capital of Nila Infra, the determination of swap ratio would not have any economic impact on the ultimate value of the shareholders of Nila Infra and the proposed demerger of Demerged Business of Nila Infra into PSL will be value neutral to Nila Infra's shareholders.

We believe that the above share entitlement ratio is fair considering that all the shareholders of Nila Infra are and will, upon demerger, be the ultimate beneficial owners of the PSL and in the same ratio (inter se) as they hold shares in Nila Infra, as on the record date to be decided by management of Nila Infra.

4.5 We have been informed by the Management that the consideration would be discharged by:

"1 (One) fully paid Equity Share of INR 1 each of PSL shall be issued and allotted for 1 (One) fully paid-up Equity Shares of INR 1 held in Nila Infra"

Having regard to the above factors and on the basis of the representations made by the Management, in our view, the same can be considered to be fair.

5. Share Issuance Ratio and Conclusion

Based on the aforesaid, in particular read with paragraph 3, 4.3, 4.4 and 4.5 above and the Scope Limitation below, and considering that all shareholders of Nila Infra are and will, upon demerger, become shareholders of PSL holding beneficial economic interest in the same proportion as they hold in Nila Infra, the following proposed share entitlement ratio is fair and reasonable to the shareholders of Nila Infra in relation to the demerger-

"1 (One) fully paid Equity Share of INR 1 each of PSL shall be issued and allotted for 1 (One) fully paid Equity Shares of INR 1 held in Nila Infra."

6. Scope Limitation, Exclusion and Disclaimers

- 6.1 We have relied upon the information, data, explanation and representations given to us by the Management including financial information, significant transactions and events occurring subsequent to the balance sheet date. We have assumed such representations to be reliable and our conclusions are dependent on such information being complete and accurate in all material respects.
- 6.2 We have not carried out a due diligence or audit of Transaction Undertaking or Nila Infra for the purpose of opining on the share entitlement ratio nor have we independently investigated or otherwise verified the data provided. Our work was not designed to verify the accuracy or reliability of the information provided to us and nothing in this report should be taken to imply that we have conducted procedures, audits or investigations in an attempt to verify or confirm any of the information supplied to us.
- 6.3 This share entitlement ratio is essentially based on the information provided by the Management for which Nila Infra accepts full responsibility. Our review and analysis have been limited to the above mentioned procedures and our analysis is subject to this limitation. Our reliance and use of this information provided by Nila Infra should not be constructed as expression of our opinion on it and we do not and will not accept any responsibility or liability for any inaccuracy in it.

- 6.4 The exercise of valuation is not a precise science and the conclusions arrived at in many cases will be subjective and dependent on the exercise of individual judgement. There is, therefore, no indisputable single share entitlement ratio. While we have provided our opinion of the Share Entitlement Ratio based on the information available to us and within the scope and constraints of our engagement, others may have a different opinion as to the same.
- 6.5 The decision to proceed on the demerger as well as acceptance of the final Share Entitlement Ratio depends on Nila Infra, which will be responsible for decisions associated with determination of the Share Entitlement Ratio and the factors other than our work will need to be taken into account in determining the same; these will include your own assessment and may include the input of other professional advisors.
- 6.6 We further assume that the Management of the companies has brought to our attention all material transactions, events or any other factors having an impact on the valuations and hence the Share Issuance Ratio.

This report has been prepared for the Management of Nila Infra and PSL solely for the purpose of the proposed restructuring envisaging the demerger of Nila Infra's Real Estate Business into PSL. This report should not be used for any other purpose.

Scheme of Arrangement

The Board of Directors of Nila Infra and PSL in their respective meeting(s) held on October 17, 2017 approved a scheme of arrangement ('Scheme'). Wherein, the real estate business of Nila Infra shall be transferred to PSL. Nila Infra (along with its nominees) presently holds 79000 Equity Shares in PSL constituting 100% of paid up share capital of PSL. During the proposed scheme of arrangement the shareholding of demerged company shall stand cancelled and the resultant company would be issuing shares to the shareholders of demerged company.

Purpose and Rationale of the Scheme of Arrangement

The object is to demerge the Real Estate Business of Nila Infra and transfer the same to PSL followed by listing of PSL on BSE and NSE as a result of which, shareholders of Nila Infra, shall directly hold shares in PSL.

The rationale for the demerger as provided for in the Scheme is to enable the better and more efficient management, control and running of the Real Estate Business. Further, it will also enable Nila Infra to focus and enhance its remaining business operations by streamlining operations and ensuring better and more efficient management control. It is expected to result in unlocking and maximizing stakeholder's value with the proposed scheme of arrangement.

The equity shares of the Demerged Company are already listed on the recognized Stock Exchanges. SECTION - IV:RISK FACTORS

Following risk factors are disclosed as general risk factors and also risk factor keeping in view the future prospects of the company after undertaking Real Estate Business of demerged Real Estate undertaking of Nila Infra.

GENERAL RISKS

The real estate market is significantly affected by changes in government policies, economic conditions, demographic trends, employment and income levels and interest rates, among other factors. These factors can affect the demand for and the valuation of projects undertaken/to be undertaken by the Company. Lower interest rates on financing from India's retail banks and housing finance companies, particularly for residential real estate, and favourable tax treatment of loans, can fuel the growth of the Indian real estate market. Changes in interest rates could also affect the willingness and ability of our prospective real estate customers.

INDUSTRY RISK

The Company's prospective business is heavily dependent on the performance of the real estate market in India, particularly in the region in which it intends to operate, and could be adversely affected if market conditions deteriorate. Real estate projects take a substantial amount of time to develop and the real estate market both for land and developed properties is relatively illiquid and further there may be little or insufficient demand for land or developed properties at the expected rental or sale price, as the case may be, which may affect Company's business, results of operations and financial condition.

Company's business may also be adversely affected by regulatory developments in the regions in which it operate or seek to develop properties such as land use regulations, zoning laws, taxes and environmental regulations, as well as political and social developments that discourage customers from investing or operating in real estate in those areas or discourage developers from selling their properties or reduce the incentives available for particular or particular types of developments.

Historically, the Indian real estate market has been cyclical, a phenomenon that can affect the optimal timing for both the acquisition of sites and the sale or rental of properties. Company cannot assure that real estate market cyclicity will not continue to affect the Indian real estate market in the future. As a result, Company may experience fluctuations in property values and rental income over time which in turn may adversely affect its business, financial condition and results of operations.

Company's performance and growth are dependent on the health of the Indian economy. The economy could be adversely affected by various factors such as political or regulatory action, including adverse changes in liberalisation policies, social disturbances, terrorist attacks and other acts of violence or war, natural

calamities, interest rates, commodity and energy prices and various other factors. Any slowdown in the Indian economy may adversely impact company's business and financial performance and the price of company's equity shares.

OPERATING RISK

Under its business model, revenues and profits are derived primarily from the sale of properties and the leasing of commercial and residential properties. While rental income can be relatively stable, revenues from sales are dependent on various factors such as the size of the developments and the extent to which they qualify for percentage of completion treatment under the revenue recognition policies and general market conditions etc. The combination of these factors may result in significant variations in revenues and profits of the Company. Therefore, company believe that period-to-period comparisons of its results of operations are not necessarily meaningful and should not be relied upon as indicative of company's future performance. If in the future company's results of operations are below market expectations, the price of company's equity shares could decline.

Company's ability to develop its Real Estate project undertaken/to be undertaken is subject to a number of risks and contingencies. If any of these risks materialize, company may not be able to develop its Real Estate project undertaken/to be undertaken, which could have a material adverse effect on its business, results of operations and financial condition.

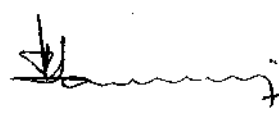

RISK IN INVESTING IN SECURITIES OF THE COMPANY

The prices of company's equity shares may fluctuate after listing due to a wide variety of factors, including volatility in the Indian and global securities markets, our operational performance, financial results, developments in India's economic liberalization and deregulation policies and changes in India's laws and regulations impacting Company's business. There is no assurance that an active trading market for Company's equity shares will develop or be sustained after listing.

DECLARATION

We hereby declare that all relevant provisions of the Companies Act, and the guidelines/regulations issued by the Government of India or the guidelines/regulations issued by the Securities and Exchange Board of India, established under section 3 of the Securities and Exchange Board of India Act, 1992, as the case may be, have been complied with and no statement made in this Information Document is contrary to the provisions of the Companies Act, the Securities and Exchange Board of India Act, 1992 or rules made or guidelines or regulations issued there under, as the case may be. 18. Subsequent to 31st day of January 2017 there has been no change in the share capital of the Resulting Company.

Description and Rationale for the Scheme

19. Description of the Scheme:

The Scheme, inter alia, provides for:

- (i) demerger of the Real Estate Undertaking (as defined in the Scheme) of the Demerged Company and transfer of the same to the Resulting Company;

- (ii) sub-division of the equity share capital of the Resulting Company and increase in the authorised share capital of the Resulting Company;
- (iii) issuance of equity shares by the Resulting Company to the equity shareholders of the Demerged Company;
- (iv) reduction of paid-up equity share capital of the Resulting Company pursuant to cancellation of equity shares held by the Demerged Company in the Resulting Company; and
- (v) reduction of Securities Premium Account of the Demerged Company.

20. The rationale for the Scheme is as under:

- (i) The Demerged Company has, over a period of time, become an Infrastructure Company with specific focus on Civic Urban Infrastructure. It has been one of the first participants in Affordable Housing projects under the Pradhan Mantri Awas Yojana ('PMAY') and, over-a-period of time, has become a specialist with already satisfactory delivery of substantial units and/or built up area. The proposed demerger of Real Estate Business is expected to provide an absolute focus on Infrastructure business and make it a pure-play Infrastructure Company. It shall provide an impetus to the financials and make a strong case of improved credit profile. The leaner capital structure and commensurate assets shall boost the business prospects of the Demerged Company and provide for value unlocking/wealth creation of the investors in the long-run
- (ii) The Demerged Company is carrying on the activities of Infrastructure Business and the Real Estate Business. Under the Infrastructure Business, the Demerged Company is engaged in the construction of affordable housing units through Engineering, Procurement and Construction (EPC) and Public Private Partnership (PPP) model and leasing of various properties. Further, the Demerged Company is also carrying on the business of Civic Urban Infra Projects through EPC and PPP model. The said Infrastructure Business has been the major contributor to the overall revenue of the Demerged Company as on date.
- (iii) The Demerged Company, as a private developer, has completed various real estate projects in the State of Gujarat, while it is also in the process, through the Resulting Company, to leverage the skills, resources, and experience in development and marketing of real estate projects.
- (iv) The proposed demerger of Real Estate Business of the Demerged Company into the Resulting Company shall result into an asset light business model for the Demerged Company and is expected to result into the improvement of the credit ratings and financial ratios. Thus, it should in turn boost the growth of the Demerged Company in future which shall be in the best interest of all the stakeholders of the aforesaid Companies.
- (v) Further, while working with the Government / Semi Government on various projects in past under EPC, EPC + PPP, PPP model, the Demerged Company has gathered an inherent potential of carrying out its own real estate projects. Further, initiatives of the Government such as "Housing for All by 2022" and "Smart Cities" projects clearly indicate that the Government recognizes urbanization as a feature of modernity. The mammoth and ambitious goal of Government of India of providing affordable housing to all its citizen by 2022 coupled with overall growth in economy and path-breaking regulatory developments such as The Real Estate (Regulation and Development) Act, 2016 ('RERA') and Goods and Service Tax Act, 2017 ('GST') will provide much needed impetus to the real estate industry in India.
- (vi) Hence, keeping in mind the favorable regulatory developments for the real estate industry, the management of the Demerged Company believes that the proposed demerger of the Real Estate Business would also ensure a focused strategy and specialization for sustainable growth of the Real Estate Business while it would also support the initiatives taken by the Government to provide affordable housing. Thus, with the proposed scheme, the stakeholders may look forward to the benefits of unlocking and maximizing value
- (vii) Thus, segregating the business would enable independent business opportunities, attracting different sets of investors, strategic partners, lenders and other stakeholders and would bring about synergy of operations and greater internal control on business processes / ease in decision making.

Dear Sirs,

We, M/s M B D & Co LLP ("MBD" the "Valuer" or "We"), have been engaged vide engagement letter dated October 12, 2017 to recommend share entitlement ratio for proposed demerger of 'Real Estate Undertaking' of Nila Infrastructures Limited ("Nila Infra" or "the Demerged Company") into Parmananday Superstructure Limited ("PSL" or "the Resultant Company") (jointly referred to as the "Companies") with effect from the appointment date of 1st April 2017 in connection with the proposed Scheme of Arrangement under Sections 230 to 232 of the Companies Act, 2013 ("the Act") between Nila Infra, PSL and their respective shareholders and creditors ("the Scheme" or "this Scheme").

This report is subject to the scope limitations, exclusions and disclaimers detailed hereinafter. As the Report is to be read in totality, and not in parts, in conjunction with the relevant documents referred to therein.

This report is structured under the following broad heads:

- Background of the Companies
- Sources of Information
- Salient features of the Scheme
- Methodology
- Share Issuance Ratio and Conclusion
- Scope Limitation, Exclusion and Disclaimers

1. Background of the Companies

- 1.1. Nila Infra, a flagship company of Nila Group, is a public limited company incorporated on February 26, 1990 under the Companies Act, 1956. The equity shares of Nila Infra are listed on BSE Limited ("BSE") and National Stock Exchange of India Limited ("NSE").
- 1.2. PSL was incorporated on May 03, 2000 under the provisions of Companies Act, 1956. It is engaged in the real estate and housing. It is a closely held public company. Nila Infra along with its nominees hold 100% of the paid-up equity share capital of PSL.
- 1.3. Nila Infrastructures Limited is one of the very few listed entities of India which is involved into the business of Infrastructure and Real Estate business i.e. primarily Affordable Housing Schemes. It has around three decades of experience in Infrastructure and Real Estate sectors.
- 1.4. Nila Infra is engaged in the business of Infrastructure Development and Real Estate. Nila Infra is carrying on the business of through the business model of EPC Contracts, PPP Contracts, EPC + PPP Contracts etc.
- 1.5. As per the draft scheme and discussion with management of Nila Infra ("the Management"), we understand that upon demerger of Real Estate Undertaking into PSL, share in PSL will be issued to shareholders of Nila Infra such that Nila Infra and PSL will have mirror shareholding upon such issue of shares.

2. Sources of Information

For the purpose of this exercise, we have considered the following sources of information and documents:

- Audited financial statements of Nila Infra and PSL for last three years;
- Unaudited Provisional Statement of Accounts of Nila Infra and PSL as on September, 2017;

- Annual Return of Nila Infra and PSL for the year 2016-17;
- Memorandum and Articles of Association of Nila Infra and PSL;
- Draft Scheme of Arrangement; and
- Held interview and relied on representation of Management
- Carried out such analysis, reviews and inquiries as we considered necessary.

3. Salient features of the proposed Scheme

- 3.1. The Scheme envisages demerger of Nila Infrastructures Limited's Real Estate Undertaking into Parmananday Superstructure Limited.
- 3.2. The Management of both the companies believe that the restructuring would benefit the companies and its stakeholders on account of the following reasons:
 - To make the current holding structure more efficient;
 - To streamline its investments;
 - Re-alignment of business operations so that the value for the shareholders can be maximized;
 - Re-alignment of Infrastructure Business and Real Estate Business into different entities will enable the respective companies to pursue different business strategies and raise resources for meeting their respective growth requirements;
 - Creation of separate companies for each business and each companies would attract different set of investors like strategic partners, lenders etc. thereby unlocking value of respective businesses and existing shareholders
 - To further explore the new avenues of other businesses;
 - To have operational flexibility in future
- 3.3. The appointed date of the Scheme shall be April 1st 2017 or such other date as the National Company Law Tribunal, Ahmedabad Bench (the 'NCLT') may direct / fix;
- 3.4. Upon scheme becoming effective, existing shareholding of Nila Infra in PSL shall stand cancelled without any payment;
- 3.5. Upon Scheme becoming effective, present Equity shares of PSL of INR 10 each will be subdivided in to 10 equity shares of INR 1 each.
- 3.6. Upon Scheme becoming effective, name of Parmananday Superstructure limited will be changed to Nila Superstructure Limited without further acts / deeds.

4. Methodology

- 4.1 For the purpose of valuation, it is necessary to select an appropriate basis of valuation amongst the various alternatives. It is universally recognized that valuation is not an exact science and that estimating values necessarily involves selecting a method or approach that is suitable for the purpose. The application of any particular method of valuation depends upon various factors including the size of company, nature of its business and purpose of valuation. Further, the concept of valuation is all about the price at which a transaction takes place i.e. the price at which seller is willing to sell and buyer is willing to buy. Accordingly, a fair and proper approach for valuing the shares of the company is to use a combination of these methods.

The following methods are generally used for determining the fair value of equity shares:

- A. Market Value;
- B. Profit Earning Capacity Value; and
- C. Asset based valuation techniques

- **Profit Earning Capacity based on the past working results**

Under this method, the value of the company is arrived at by capitalising its future maintainable profits by an appropriate Price Earnings Ratio ("PE Ratio"). Such future maintainable profits are calculated based on the past working results of the company, usually for a period of 3-5 years after adjusting for non-recurring, unusual or abnormal items of income and expenditure. In determining the PE Ratio one may consider share quotations of companies engaged in the same or similar business as the company whose shares are being valued after adjusting for dissimilarities between the companies being compared with the equity shares of the company being valued and the strengths, weakness and other factors peculiar to the equity shares of the company being valued.

- **Asset based valuation techniques**

The asset based valuation technique is based on the value of the underlying net assets of the company, either on a realizable value basis or replacement cost basis. This method is also known as the Net Asset Valuation ("NAV") methodology. Normally, this method is adopted in the following circumstances:

- When the firm does not meet the "going concern" criteria; or
- When the assets base dominate earnings capability

4.2 As mentioned in clause 1.2 and 1.5 of this report, Nila Infra and PSL are a part of same group/entities and upon the proposed restructuring none of stake holders would be adversely affected. Accordingly, the Board of Directors of Nila Infra and PSL have proposed a share exchange ratio for the Scheme having regard to the following factors:

- Desired capital structure; and
- Serviceability of capital.

4.3 We understand that consequent to the demerger, the beneficial economic interest of the shareholders of Nila Infra (the Demerged Company) in the paid-up equity share capital of PSL (the Resulting Company) would be the same as it is in the paid-up equity share capital of Nila Infra (the Demerged Company).

4.4 Considering following aspects:

- PSL is wholly owned subsidiary of Nila Infra;
- Upon the Scheme becoming effective, existing shareholding of Nila Infra in PSL shall stand cancelled without any payment;
- Upon the Scheme becoming effective, present Equity shares of PSL of INR 10 each will be subdivided in to 10 equity shares of INR 1 each.
- Upon the Scheme becoming effective, shareholders of Nila Infra would be entitled to shares in PSL in the same proportion in which they own shares in Nila Infra; and
- Upon the Scheme becoming effective, the beneficial economic interest of the shareholders of Nila Infra in the paid-up equity share capital of PSL would be the same as it is in the paid-up equity share capital of Nila Infra, the determination of swap ratio would not have any economic impact on the ultimate value of the shareholders of Nila Infra and the proposed demerger of Demerged Business of Nila Infra into PSL will be value neutral to Nila Infra's shareholders.

We believe that the above share entitlement ratio is fair considering that all the shareholders of Nila Infra are and will, upon demerger, be the ultimate beneficial owners of the PSL and in the same ratio (inter se) as they hold shares in Nila Infra, as on the record date to be decided by management of Nila Infra.

4.5 We have been informed by the Management that the consideration would be discharged by:

"1 (One) fully paid Equity Share of INR 1 each of PSL shall be issued and allotted for 1 (One) fully paid-up Equity Shares of INR 1 held in Nila Infra"

Having regard to the above factors and on the basis of the representations made by the Management, in our view, the same can be considered to be fair.

5. Share Issuance Ratio and Conclusion

Based on the aforesaid, in particular read with paragraph 3, 4.3, 4.4 and 4.5 above and the Scope Limitation below, and considering that all shareholders of Nila Infra are and will, upon demerger, become shareholders of PSL holding beneficial economic interest in the same proportion as they hold in Nila Infra, the following proposed share entitlement ratio is fair and reasonable to the shareholders of Nila Infra in relation to the demerger-

"1 (One) fully paid Equity Share of INR 1 each of PSL shall be issued and allotted for 1 (One) fully paid Equity Shares of INR 1 held in Nila Infra."

6. Scope Limitation, Exclusion and Disclaimers

- 6.1 We have relied upon the information, data, explanation and representations given to us by the Management including financial information, significant transactions and events occurring subsequent to the balance sheet date. We have assumed such representations to be reliable and our conclusions are dependent on such information being complete and accurate in all material respects.
- 6.2 We have not carried out a due diligence or audit of Transaction Undertaking or Nila Infra for the purpose of opining on the share entitlement ratio nor have we independently investigated or otherwise verified the data provided. Our work was not designed to verify the accuracy or reliability of the information provided to us and nothing in this report should be taken to imply that we have conducted procedures, audits or investigations in an attempt to verify or confirm any of the information supplied to us.
- 6.3 This share entitlement ratio is essentially based on the information provided by the Management for which Nila Infra accepts full responsibility. Our review and analysis have been limited to the above mentioned procedures and our analysis is subject to this limitation. Our reliance and use of this information provided by Nila Infra should not be constructed as expression of our opinion on it and we do not and will not accept any responsibility or liability for any inaccuracy in it.

- 6.4 The exercise of valuation is not a precise science and the conclusions arrived at in many cases will be subjective and dependent on the exercise of individual judgement. There is, therefore, no indisputable single share entitlement ratio. While we have provided our opinion of the Share Entitlement Ratio based on the information available to us and within the scope and constraints of our engagement, others may have a different opinion as to the same.
- 6.5 The decision to proceed on the demerger as well as acceptance of the final Share Entitlement Ratio depends on Nila Infra, which will be responsible for decisions associated with determination of the Share Entitlement Ratio and the factors other than our work will need to be taken into account in determining the same; these will include your own assessment and may include the input of other professional advisors.
- 6.6 We further assume that the Management of the companies has brought to our attention all material transactions, events or any other factors having an impact on the valuations and hence the Share Issuance Ratio.

This report has been prepared for the Management of Nila Infra and PSL solely for the purpose of the proposed restructuring envisaging the demerger of Nila Infra's Real Estate Business into PSL. This report should not be used for any other purpose.

Scheme of Arrangement

The Board of Directors of Nila Infra and PSL in their respective meeting(s) held on October 17, 2017 approved a scheme of arrangement ('Scheme'). Wherein, the real estate business of Nila Infra shall be transferred to PSL. Nila Infra (along with its nominees) presently holds 79000 Equity Shares in PSL constituting 100% of paid up share capital of PSL. During the proposed scheme of arrangement the shareholding of demerged company shall stand cancelled and the resultant company would be issuing shares to the shareholders of demerged company.

The scheme is further subject to approval from the stock exchange(s), Securities and Exchange Board of India (SEBI), shareholders and creditors of aforesaid companies, National Company Law Tribunal (NCLT) and other regulatory authorities, as may be applicable. Pursuant to the aforesaid scheme becoming effective, the Company shall issue equity shares to the shareholders of Nila Infra in the ratio and manner as stated in said Scheme.

Purpose and Rationale of the Scheme of Arrangement

The object is to demerge the Real Estate Business of Nila Infra and transfer the same to PSL followed by listing of PSL on BSE and NSE as a result of which, shareholders of Nila Infra, shall directly hold shares in PSL.

The rationale for the demerger as provided for in the Scheme is to enable the better and more efficient management, control and running of the Real Estate Business. Further, it will also enable Nila Infra to focus and enhance its remaining business operations by streamlining operations and ensuring better and more efficient management control. It is expected to result in unlocking and maximizing stakeholder's value with the proposed scheme of arrangement.

The equity shares of the Demerged Company are already listed on the recognized Stock Exchanges. The Scheme provides for cancellation of 79,000 number of equity shares of the Resulting Company held by the Demerged Company and the consequent new issue of 39,38,89,200 number of equity shares to the shareholders of the Demerged Company. Such cancellation of shares would happen as an integral part of the Scheme. Accordingly, the proposed Scheme will create mirror shareholding in PSL.

SECTION - IV:RISK FACTORS

Following risk factors are disclosed as general risk factors and also risk factor keeping in view the future prospects of the company after undertaking Real Estate Business of demerged Real Estate undertaking of Nila Infra.

GENERAL RISKS

The real estate market is significantly affected by changes in government policies, economic conditions, demographic trends, employment and income levels and interest rates, among other factors. These factors can affect the demand for and the valuation of projects undertaken/to be undertaken by the Company. Lower interest rates on financing from India's retail banks and housing finance companies, particularly for residential real estate, and favourable tax treatment of loans, can fuel the growth of the Indian real estate market. Changes in interest rates could also affect the willingness and ability of our prospective real estate customers.

INDUSTRY RISK

The Company's prospective business is heavily dependent on the performance of the real estate market in India, particularly in the region in which it intends to operate, and could be adversely affected if market conditions deteriorate. Real estate projects take a substantial amount of time to develop and the real estate market both for land and developed properties is relatively illiquid and further there may be little or insufficient demand for land or developed properties at the expected rental or sale price, as the case may be, which may affect Company's business, results of operations and financial condition.

Company's business may also be adversely affected by regulatory developments in the regions in which it operate or seek to develop properties such as land use regulations, zoning laws, taxes and environmental regulations, as well as political and social developments that discourage customers from investing or operating in real estate in those areas or discourage developers from selling their properties or reduce the incentives available for particular or particular types of developments.

Historically, the Indian real estate market has been cyclical, a phenomenon that can affect the optimal timing for both the acquisition of sites and the sale or rental of properties. Company cannot assure that real estate market cyclicity will not continue to affect the Indian real estate market in the future. As a result, Company may experience fluctuations in property values and rental income over time which in turn may adversely affect its business, financial condition and results of operations.

Company's performance and growth are dependent on the health of the Indian economy. The economy could be adversely affected by various factors such as political or regulatory action, including adverse changes in liberalisation policies, social disturbances, terrorist attacks and other acts of violence or war, natural

calamities, interest rates, commodity and energy prices and various other factors. Any slowdown in the Indian economy may adversely impact company's business and financial performance and the price of company's equity shares.

OPERATING RISK

Under its business model, revenues and profits are derived primarily from the sale of properties and the leasing of commercial and residential properties. While rental income can be relatively stable, revenues from sales are dependent on various factors such as the size of the developments and the extent to which they qualify for percentage of completion treatment under the revenue recognition policies and general market conditions etc. The combination of these factors may result in significant variations in revenues and profits of the Company. Therefore, company believe that period-to-period comparisons of its results of operations are not necessarily meaningful and should not be relied upon as indicative of company's future performance. If in the future company's results of operations are below market expectations, the price of company's equity shares could decline.

Company's ability to develop its Real Estate project undertaken/to be undertaken is subject to a number of risks and contingencies. If any of these risks materialize, company may not be able to develop its Real Estate project undertaken/to be undertaken, which could have a material adverse effect on its business, results of operations and financial condition.

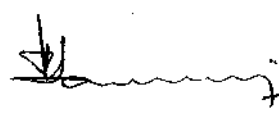

RISK IN INVESTING IN SECURITIES OF THE COMPANY

The prices of company's equity shares may fluctuate after listing due to a wide variety of factors, including volatility in the Indian and global securities markets, our operational performance, financial results, developments in India's economic liberalization and deregulation policies and changes in India's laws and regulations impacting Company's business. There is no assurance that an active trading market for Company's equity shares will develop or be sustained after listing.

DECLARATION

We hereby declare that all relevant provisions of the Companies Act, and the guidelines/regulations issued by the Government of India or the guidelines/regulations issued by the Securities and Exchange Board of India, established under section 3 of the Securities and Exchange Board of India Act, 1992, as the case may be, have been complied with and no statement made in this Information Document is contrary to the provisions of the Companies Act, the Securities and Exchange Board of India Act, 1992 or rules made or guidelines or regulations issued there under, as the case may be. We further certify that all statements in the Abridged Prospectus are true and correct.
